## DELEGATES LEAVE FOR BERLIN; RAVE AT LLOYD GEORGE

(BY CABLE AND ASSOCIATED PRESS.)

BERLIN, March 8.—The city of Frankfurt is making preparations for possible occupation. It is believed the French will include it in the proposed customs area.

FEAR OF SERIOUS RESULTS LOOMING.

(BY CABLE—EXCLUSIVE DISPATCHES)

LONDON, March 8.—The German delegation, headed by Dr. Walter Simons, Foreign Minister, whose reparation offer was refused by the Supreme Council of the Allies yesterday, left London today very quietly, disheartened, angry and bitter toward Lloyd George, whom they accuse of having changed his mind overnight. Until the Germans had actually departed, there were members of the Allied delegation who held strongly to the opinion that the Germans would make some eleventh-hour move which would alter the entire situation.

The persistency with which certain officials cling to this belief was amazing. In the light of Lloyd George's speech to the Germans at the closing of the conference.

HOW CONFEREES FEEL.  
Of all those who sat through the conferences, which had no equal for spectacular developments in the last two years, only the French express a feeling of satisfaction. Premier Briand and Marshal Foch have obtained everything they desired, and everyone connected with their delegation is smiling and happy. This is not the case with Lloyd George. Count Simons or the Belgian delegation.

They fear that the advance into Germany is only a beginning of more serious things. They wonder whether the withdrawal will be as easy, or whether, as in war, the advance means entanglements and responsibilities which might hold a nation, even when it desires to retire.

Now that the military forces are in the very heart of industrial Germany, and in full control of it, nobody knows what will happen next. Reports from the occupied area say the seizures were made quietly.

What the mass of people will do and what the attitude of the workers will be are questions to which the answers are anxiously awaited in Downing street.

PUBLIC INDIFFERENCE.  
The general public shows an indifference to the whole subject, which it is difficult to understand. There is no excitement and none of the enthusiasm attending entry into war. Most of the people seem to think that Lloyd George has taken the only step possible, but there are others who already have raised their voices in criticism.

It is not the time to forecast or to attempt to predict where yesterday's profoundly important decision will lead to, but no prophet is needed to see that the situation which has been created will intensify national rivalries, increase bitterness and retard a rehabilitation of Europe. That is the fact of the situation today.

FRANCE DOMINATES ALL.  
Berlin has its back up, and so has all Germany. France dominates the Allied policy. The British, Italians and Belgians are not completely satisfied, but they are committed.

## SEE ALLIES IN ACTION.

Germans Are Stolid and Stupid as Troops Swing Into Dusseldorf.

BY JOHN CLAYTON.

(BY CABLE—EXCLUSIVE DISPATCH.)

DUSSELDORF (Germany) March 8.—Armed forces of France, Belgium and Great Britain today marched into the three principal cities of the Ruhr basin—Dusseldorf, Duisburg and Hultorf. There was no disturbance or sign of hostile interest upon the part of the inhabitants, and tonight found the three Rhine coal ports completely under Allied control.

The advance into Dusseldorf began shortly after daylight, when Belgian troops entered the city by way of the bridge over the Rhine.

By 7 o'clock the Belgians had occupied the Rathaus, the telephone exchange and all important street intersections. They also had mounted machine guns at points commanding the street leading out of the business section of the city.

BRITISH FROM COLOGNE.  
The first English forces to take part in the occupation were airplanes from Cologne, which appeared over the city shortly after 7 o'clock. From that hour until late this evening they circled constantly over the business center and outlying districts.

At 11 o'clock French troops moved up to the town and established headquarters in the Rathaus while the staff officers took over the Park Hotel as billets.

By noon the streets were filled with the horizon blue of the French and the golden-brown khaki of the Belgians.

The first English detachment to arrive was one battalion of the Fourteenth Hussars, supported by tanks, which arrived in the city at 3 o'clock. They marched at once to the barracks assigned to them.

TROOPS COME QUICKLY.  
Belgian and French troops scheduled to occupy Duisburg and Hultorf marched from Oberhausen shortly after 7 o'clock this morning and the first platoons reached those cities a few minutes before noon.

The Allied occupation was snappy and businesslike. There was no interruption of business. Small groups of idlers gathered in the street to stare, but the majority of the population went about its affairs quietly.

The behavior of the troops was above reproach, and the civilians maintained an attitude of stolid indifference.

In addition to a 10 per cent cut in hourly rate, it is planned to establish intermediate rates in conference between plant management and yard committees, and correct existing inconsistencies in the present piece-work rates.

NO MUSIC OR PARADES.  
There was nothing inspiring or sensational about the occupation—no music or parades. The soldiers kept their distance from the population. It was all in the day's work for them.

Occupying enemy territory is an old story to every man involved in the Allied-troop movements.

Dusseldorf has been invaded into three zones with the Belgians in the section along the river, the French in the center of the city, and the British in the section along the Rhine.

## PREMIER IS VICTIM OF ASSASSIN.

Dato is Slain in Street of Madrid While Riding from Chamber in Motor Car.

(BY CABLE AND ASSOCIATED PRESS.)

MADRID, March 8.—Premier Dato was assassinated this evening while returning from the Chamber in a motor car.

The assassin was a man on a motorcycle, who fired a shot at the Premier Dato as he was riding along the street.

Eduardo Dato was recognized as one of the most conservative of the Conservatives in Spain. He became leader of the Liberal-Conservative party, the strongest political group in Congress after the disappearance of Canovas. Never a friend of the working classes, and opposed to all reforms, Dato acquired the height of his reputation for sternness in August, 1917, when he suppressed the workers' movement.

On several occasions he was Speaker of the House. Besides holding portfolios in various Cabinets, he was Premier several times. Although apparently of gentle temperament, Dato possessed a will of iron and never discussed a subject, once he had made up his mind. He was born in La Coruna, Aug. 13, 1851, and studied law. He passed his final examinations at the age of 19.

When he entered politics he pushed rapidly to the front, becoming Secretary of State for the Interior in 1901 and Minister of the same department in 1909. In 1903 Dato became Minister of Justice and in 1907 he was nominated Speaker of the House and also became Mayor of Madrid. He was first chosen Premier in 1913 and again in 1917. In 1918 he became Secretary of the Foreign Affairs. He was married in his early youth and was the father of three children.

DENBY GETS NEW JOB.

(BY A. P. NIGHT WIRE.)

LANING (Mich.) March 8.—Edwin Denby, Secretary of the Navy, has been named by Gov. Grosbeck as honorary chairman of the Michigan committee for the China famine fund.

## MARCH OF ALLIED TROOPS PROVES TO BE PEACEFUL.

Important Positions Taken Up; People Indifferent to Move as Economic Pressure Begins to Tighten.

(BY CABLE AND ASSOCIATED PRESS.)

**FRENCH MILITARY HEADQUARTERS, MAYENCE, March 8.**—Occupation of the additional German territory, which the Allies had announced they would take possession of as one of the penalties for Germany's failure to meet the Allied reparations demands, was carried out today by British, French and Belgian troops. No untoward incident marked the eastward move of the Allied troops.

The occupation of Düsseldorf, the largest of the cities taken over by the Allies, was completed this morning, and that of Duisburg and Dortmund, comprising together the chief ports of the Ruhr coal and industrial region, this afternoon.

The entire movement was effected in a way to obviate, so far as possible, a show of force, but the French and the British Rhine flotilla were prepared for eventualities.

The headquarters of Gen. De Goutte, who, as commander-in-chief of the French forces along the Rhine, carried out the orders from Marshal Foch for the advance, are situated at Neuen, on the left bank of the Rhine opposite Düsseldorf.

After the occupation of Düsseldorf, Gen. De Goutte issued a proclamation to the people in which he declared the occupation was not a measure of hostility against the population, but one intended to compel the government of Germany to carry out its obligation. No outbreaks would be raised against the carrying on of the economic life of this region, he declared, and the Allied authorities were ready to aid the workers in improving their condition, especially as regarded provisions.

Advice from the area of Allied action show the Belgians and French reached Duisburg and Dortmund at 12:45 a.m. Gen. Beauregard, the Belgian army, it was announced, would assume command as soon as the occupation of these towns was completed.

The French contingent of occupation is a battalion of chasseurs that arrived in river craft, disembarking at the Ruhr docks.

The military experienced no difficulties with the German railways, traffic on which moved smoothly without exception.

**TAKE UP POSITIONS.** (BY CABLE AND ASSOCIATED PRESS.)

**DÜSSELDORF, March 8.**—French and British airplanes flew over Düsseldorf today, while Allied troops, with machine guns, were taking positions on the bridges, roads and in important factories. Inhabitants had not been prepared by the newspapers for the determination of the Allies to occupy additional German territory. British tanks and cavalry landed to the north and French artillery and engineers moved to the south. The Anglo-French forces massed around Düsseldorf, while Belgian infantry crossed the bridge into the city.

The city, largest of those taken over, was quickly entered. Many persons were on the street corners, looking on apparently with indifference as the troops based. Late in the day small groups crowded

penalties into effect. This means an act of violence, for penalties have nothing to do with the usual principles of right. The conditions imposed on us are to be secured by force. This rupture can neither be disguised nor justified by legal deceptions.

Open discussion cannot begin, it was announced, until the return of Dr. Simons, the Foreign Minister. Chancellor Fehrenbach declared the Allies admitted that the occupation was expected of Germany in the Paris decisions. Neither sentiment, European relationships nor liquidation of the war was possible owing to the Allied course of action.

**EVIL ENHANCED.**

"If they persist," he said, "the evil can only be enhanced. The Allies are only creating fresh embarrasment for themselves."

The Chancellor said force must be replaced by honest intent for world brotherhood and good will. He declared Germany had never declined to take upon herself the consequences inseparable from defeat.

"We must show now the height of our fortitude, the extent of our patience and endurance," he added. "I have every confidence in the German people to do that."

**"PATRIOTIC SENTIMENT."**

His thoughts turned to the threatened parts of the fatherland, from which echoes of determination and endurance were reverberating, and he thanked the German people for their patriotic sentiment.

A motion supported by the Communists and Independents for a debate was rejected.

**EXPERTS CONFERENCE.**

Experts who co-operated in the preparation of the German counter-proposals met today. According to the Berlin Zeitung, they will try to find a basis for fresh negotiations if the Allies indicate a desire for a resumption.

**DEFENSELESS GERMANY.**

Germany said: "The conference placed the true sentiments of the Entente in the right light, and this led to a most ruthless violation of defenseless Germany for a mere nothing."

**WILL NOT STRIKE.**

There will be no general strike in protest against the Allied advance into Germany, it has been decided by the labor unions. The Communists have been urging a strike.

**FRENCH TROOPS USED.**

(BY CABLE AND ASSOCIATED PRESS.)

**PARIS, March 8.**—Less than 25,000 troops were used in carrying out the occupation of additional German territory under the decisions reached at London, effected today. It was stated at the Foreign Office this afternoon, "No colonial forces and no negro troops whatever were included in this number."

The occupation was completed without friction and the troops had been ordered to observe strict discipline in the new area, treat the population courteously and avoid any cause for trouble.

A detachment of 150 blue-jackets to reinforce the French Rhine flotilla left tonight. Another hundred will leave tomorrow.

**DELEGATES LEAVE.**

(BY CABLE AND ASSOCIATED PRESS.)

**LONDON, March 8.**—German reparations delegates left for Berlin at 2 p.m. today, and seemed pleased to get away. Their departure was without incident.

The train carried British relief

forces proceeding to join British forces on the Rhine.

**DUTCH WATCH CLOSELY.**

(BY CABLE AND ASSOCIATED PRESS.)

**THE HAGUE, March 8.**—The Dutch government, as much of Holland's commercial prosperity depends on the trade that flows through the Scheldt, is watching closely the effect the Allied occupation of the proposed customs collections will have on Dutch trade.

While losses may be incurred through the decrease in Rhine trade, Dutch officials held that nothing can prevent Germany sending as much merchandise as she pleases direct into Holland over the railroads.

Evening newspapers generally are unfavorable to the Allied action.

**GERMAN GAME OBVIOUS.**

(BY CABLE AND ASSOCIATED PRESS.)

**ROME, March 8.**—The Giornale D'Italia, discussing the move, says: "Germany's game is obvious. For in subordinating the question of payment to that of Upper Silesia, the Germans know they are asking an impossible thing. All their concessions are only a farce."

The Tribune says the Germans do not understand that the solidity of the Allies is unshakable, nothing can be more certain than that the German idea of reparations, which, according to Dr. Simons, should be a basis for fresh negotiations if the Allies demand a certificate of the origin of the goods through Holland, are asking during the war. It expressed the hope that the government will oppose the move through Holland, and industry, which already have suffered so much.

**MOORE MEN TO FRONT.**

(BY CABLE AND ASSOCIATED PRESS.)

**AMSTERDAM, March 8.**—The Handelsblad says the result of the reparations conference at London is regrettable, as far as Dutch economic conditions are concerned. It asks what Holland will do if the Allies demand a certificate of the origin of the goods through Holland, and industry, which already have suffered so much.

**BRUSSELS, March 8.**—Premier De Wiat today told the Chamber of Deputies that a regiment of grenadiers was going to the Rhineland to reinforce the troops of occupation, and that possibly a regiment of cavalry would join the forces later.

**ARMY WILL BE KEPT ON RHINE.**

(Continued from First Page.)

American troops from the Rhine, particularly new cavalry regiments, are being produced by the advance of the French and British into Germany, was discussed at the Cabinet meeting today. The President indicated that more definite information on the situation in the Rhine area is being reached. It is likely to be discussed again at the Cabinet meeting tomorrow.

What asked whether there is a probability of the withdrawal of American forces from Germany at an early date, the secretary of War Weeks said:

"That is a situation which is rather complex and requires serious consideration to date."

**TEAMWORK PLEASES.**

After the Cabinet meeting, Mr. Lansing told the newspaper correspondents that there had been a close evidence of teamwork and that the cabinet members were working as a team.

Vice-President Coolidge was invited to attend all Cabinet meetings, and he said he would accept all questions taken up.

The President remarked to the Cabinet that one of the big reforms in the past year has been the reorganization of the government on a business basis.

He had gone over the tentative plans with Senator Smoot, chairman of the joint committee on the War and Navy Departments, and had approved them. He expressed the hope that the shifting of bureaus from one department to another and even the elimination of duplicating agencies would not arouse jealousies among the Cabinet members who had to co-operate with the joint committee.

The reorganization plans in the interest of efficiency and economy are to be taken up tomorrow by the joint committee. Charts outlining the plan for the co-ordination and elimination of duplication of governmental agencies have been prepared for submission to the committee.

These plans, if carried out, would give the government a thorough overhauling and renovating for the first time since the days of Alexander Hamilton. They would abolish some bureaus outright, move others to different departments, logically belong and unite others where work is being duplicated.

Mr. Lansing said the character of the reorganization scheme and the vast assortment of ideas and recommendations which must be considered, however, Senator Smoot expects that it will be a year perhaps before the committee will be ready to make its final report.

Nearly all the new Cabinet heads have been impressed with the grotesque economic situation of some of the government bureaus. Herbert Hoover, Secretary of Commerce, after a day or two in office, describes the situation in the manner:

**ALL BEARKEEPERS TROUBLED.**

"The Commerce Department has charge of the police, the Navy and Navy Departments, and the army, the Navy and the Treasury Department has charge of the brown bears."

Among the more important ideas which the committee will consider are the consolidation of the War and Navy Departments and the transfer of the prohibition enforcement bureau from the Treasury Department to the Department of Justice.

The members of the joint committee are: Senators Smoot, Harrison of Mississippi, and Representatives Reavis of Nebraska, Temple of Pennsylvania and Moore of Virginia.

**URGE FEDERATION OF BRITISH WEST INDIES.**

(BY CABLE AND ASSOCIATED PRESS.)

**KINGSTON (Jamaica) News, March 8.**—A majority of Jamaicans do not favor the suggested sale of the island to the United States.

As a counter-move a resolution was introduced in the House today urging confederation of the group of the British West Indies with a uniform tariff.

Excellent Remedy for Constipation. It would be hard to find a better remedy for constipation than Chamberlain's Tablets. They take and mild and gentle in effect. Give them a trial when you have need. (Advertisement.)

The French rate of 6.99 for demand bills showed a decline of 10 points.

Dutch remittances fell 15 points and the German marks at 1.93 showed a loss of 15 points.

**FRANCE HAPPY AT INVASION.**

(Continued from First Page.)

Premier Briand is the leading political figure, while Foch is back in the saddle. Lloyd George, who had practically been the dictator since the dissolution of the big three, is now crowded to the back of the stage. He does not like the position, and he will not remain there long. Everyone agrees that the present situation is only temporary.

**HARDING ACTS WITH CAUTION.**  
Insurgency Growing Over Colombian Pact.  
President Hesitates to Ask for Ratification.  
Senate Call It Blackmail; Will Be Bad Precedent.

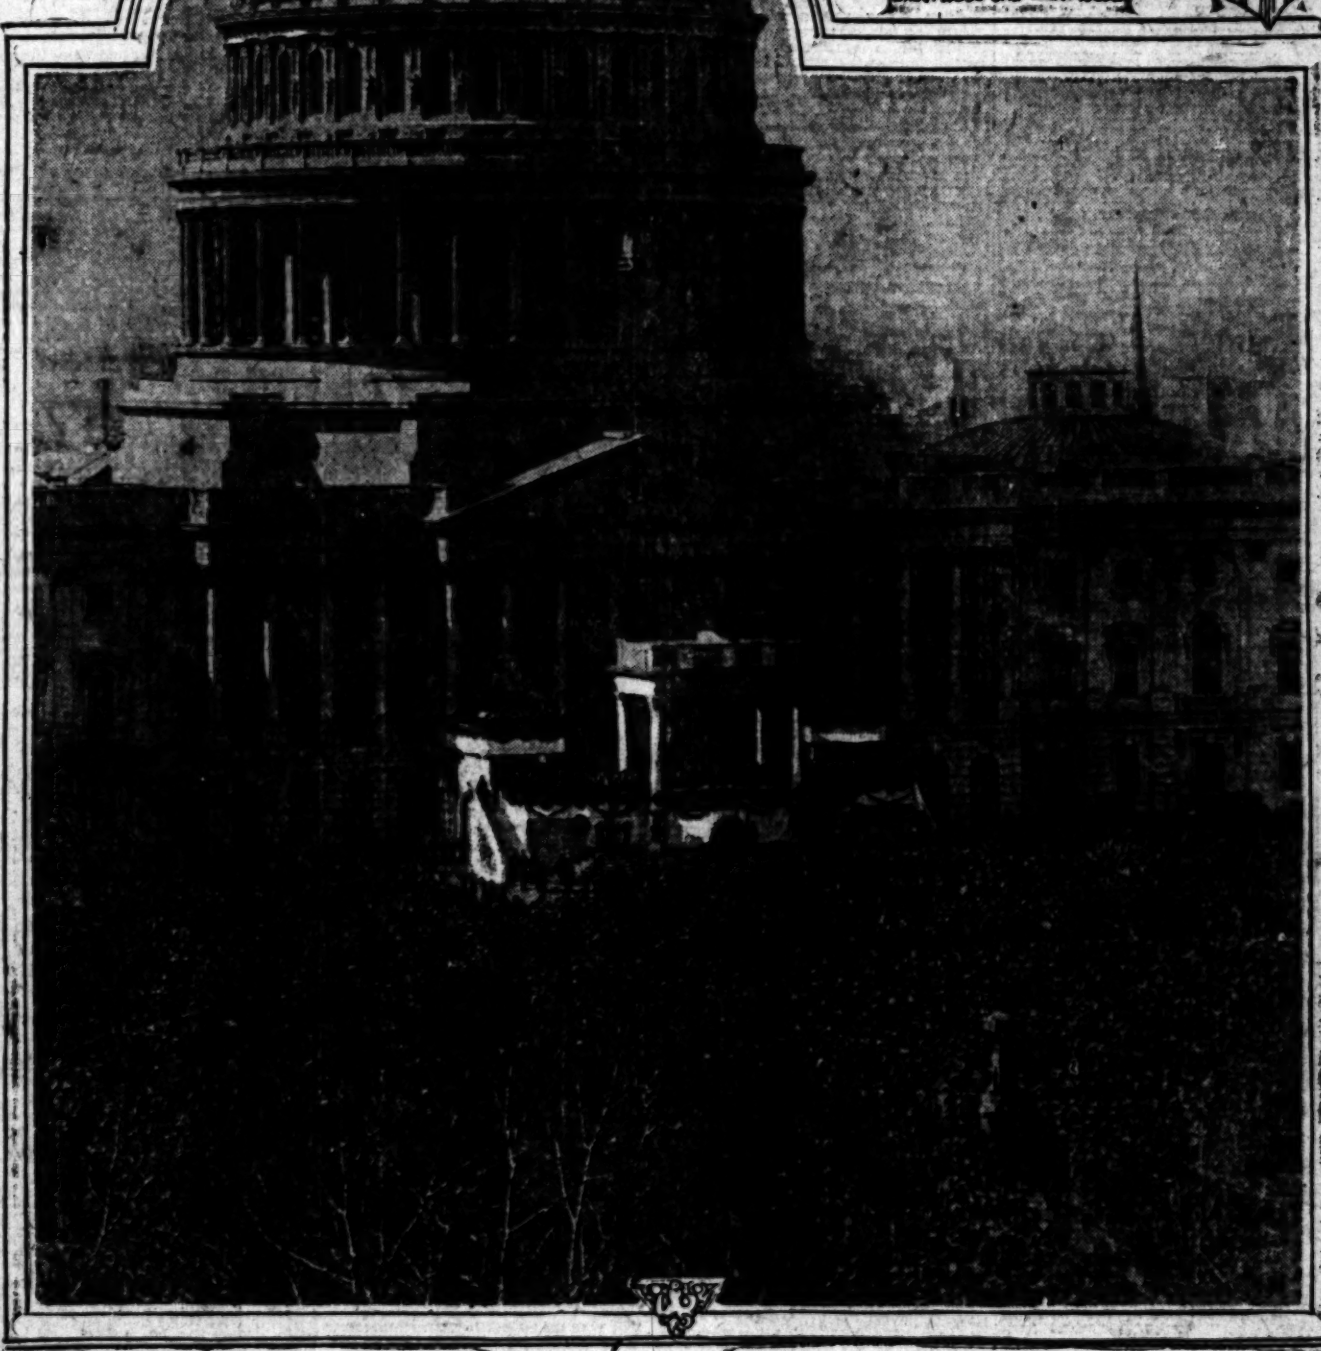

U.S. of these was furnished by a minority report made in 1914 against the treaty by Senators Lodge, Brandegee, McCumber, Borah and Fall. In this report they said: "We cannot afford to purchase cordial relations with any country; we cannot afford to answer a blackmail demand; once respond to such a demand and we shall be held up for every fancy wrong by other countries."

Senator Borah issued a statement tonight attacking the treaty and calling attention to the vast benefits which Colombia receives from the Panama Canal.

"The treaty, as it is now proposed to be ratified, permits Colombia at all times to transport through the canal its troops and materials of war and ships of war without charge," he said. "This is a gross discrimination against the other South American countries; and instead of bringing peace will likely bring dissatisfaction."

"There is no country in the world that has been so thoroughly benefited by the building of the canal as Colombia. Instead of being injured she has been benefited, and now we are proposing to pay her \$25,000,000 and to give her advantages in the use of the canal in all respects equal to and in some respects greater than the advantages enjoyed by the United States. The \$25,000,000, great as it is, is only a small portion of what we are giving Colombia for building a canal from which she has derived more advantages than any other single nation."

**Carpenters Refuse Pay Cut.**  
(BY A. P. DAY WIRE.)  
CHICAGO, March 8.—The proposal of the Associated Builders of Chicago that bricklayers, carpenters and common laborers accept a 30 per cent wage reduction was rejected last night by the carpenters' executive council.

Taking the Oath.

At the upper left is shown a picture of Mr. Harding with Senator Knox of Pennsylvania, on their way to the White House from the United States Capitol for the ceremony that made Mr. Harding President and retired Mr. Wilson to private life. President Harding, on the evening of his inauguration, and Mrs. Harding were honor guests at an elaborate dinner in the Cabinet room of the White House, given by Mr. and Mrs. Caryl A. Thompson of Cleveland. Mr. Thompson formerly was secretary to President Taft, and previous to that had been Assistant Secretary of the Interior Department. He also has been a close personal friend of President Harding. All of the forty-seven guests at the dinner were Ohioans, with the exception of Mr. and Mrs. Will H. Hays of Indiana. Mr. Hays was the Republican campaign manager and now is in the Cabinet as Postmaster-General. Mr. Harding escorted Mrs. Thompson to dinner and Mrs. Harding was escorted by Mr. Hughes. The scene shows some of the members of the dinner party grouped for the photographer. At the right (top) is a picture of Secretary of State Hughes and Assistant Secretary Fletcher. The photograph was taken when the two visited the State Department previous to taking the oath of office, "just to look things over." Below is an inspiring scene taken from the dome of the library of Congress at the time when Mr. Harding was taking the oath of office. The place is the stand in front of the Capitol building around which many thousands stood to see—and try to hear. At the bottom of the picture, what looks like a sea of people congregated to pay homage to the new Executive. On the stand with Mr. Harding were the principals in the inauguration ceremonies, while at the sides were members of the Senate and House, diplomats, high government officials, correspondents and others entitled to this place of vantage.

LABOR FREEDOM IS ATTACKED.

Socialist Committee Opposes Open-Shop Move.

Pledges Support to Union Organizations in Fight.

Declares Anti-Jap Campaign Incites Race Hatred.

(BY A. P. NIGHT WIRE.)  
NEW YORK, March 8.—Subjects relevant to the future of the Socialist party were discussed by its national executive committee today and were embodied in a report to be published as the official agenda of the next national convention in Detroit beginning June 25.

The committee declared that the important matters of the preliminary order of business were "four alternative motions defining relations of the Socialist party to the International; two alternative definitions of political action and a motion to replace the prohibition against voting military appropriations in the party's constitution."

The committee also pledged the party and its members "to hearty support of the organized working class in its struggle against the attempt to destroy the labor union."

**SOVIETS DISCUSSED.**  
"Motions defining a number of subjects in the right of the Communist International were presented," the committee statement said. "In every case the text following the Moscow 'theses' almost literally. Such subjects as the Soviet form of organization, the Soviet method of achieving power, the dictatorship of the proletariat, mass action, democracy, parliamentary action and the political strike, were presented by adherents of the Moscow organization, and alternatives presented by other party organizations."

"In virtually every case the text is drawn between a dependence on the support of the majority for ultimate Socialist victory and a distrust of democratic forms and methods. The issues will be debated and determined for the Socialist party by the delegates to be elected presumably upon the basis of their stand upon the agenda subjects."

"In addition to the agenda, the committee adopted a resolution bitterly protesting against the Ford antisemitic campaign, the Ku Klux antinegro campaign and the anti-Japanese campaign, as moves intended to incite race hatred and to divide workers into mutually hostile camps."

**OPEN SHOP ATTACKED.**  
"Resolutions also were adopted endorsing the efforts of the Socialists of Chicago, St. Louis and San Francisco to establish daily Socialist papers."

"The committee attacked the 'open shop,' which it characterized 'as the open road to destruction for the organized workers.'"

"Like all wars in modern history," the statement said, "the World War has been followed by a ruthless array of reaction on the part of the ruling classes. Confident of their control of a mercenary press, of their influence and power at the State capitals and at Washington."

**SOCIAL WASHINGTON GAY.**  
Great Round of Parties Looms for All; "Shut-Upness" Thing of Past.  
BY HARRY CARR.  
(EXCLUSIVE DISPATCH.)  
WASHINGTON, March 8.—Although the Hardings were not there, the big soiree at the McLean mansion on Fifteenth street the night of the inauguration began the big social stuff. Nobody made any secret of it. It was a special jubilee of rejoicing on the part of Washington society at getting rid of the Wilsons. No one wants to be catty about it, so it can be passed without comment.

But anyhow the fact is that official Washington society is dusting off its evening clothes and the big stuff is about to begin. Under the Hardings, Washington is due to be gay as it has been since the days of Dolley Madison.

They are not society people, nor have they any ambitions to be. The Hardings are just folks, but they are accustomed to being with good people, and they are wholesome and cordial. Both the President and Mrs. Harding like to have the feeling that the people around them are having a good time. So they have opened the rust-covered gates of the White House and let in the sunshine of happiness—not to mention the public.

**ALICE COMING BACK.**  
One of the big face cards of the social order will very likely be Alice Roosevelt Longworth. She has not been seen much in official Washington society since her debutante days.

With a husband who has become one of the strongest men and the most respected in Congress, Mrs. Longworth will occupy a conspicuous position under the Hardings, and she will fill it brilliantly.

Those who know her well say that she is the highest type of what everybody thinks an American girl should be—well bred, with the mark of blue blood in her face and carriage—cultured and intellectual. Probably no woman in the United States is better posted on national legislation. She is to be seen in the Senate gallery at every important debate.

Another brilliant figure under the sway of Mrs. Harding is pretty sure to be Violet Asquith, daughter of the former British Premier. She is now the Princess Belsasco, wife of the Ambassador from Rumania. She is ready.

A fascinating and brilliant talker, like her distinguished mother.

Another important figure who will ornament Washington in this administration is, of course, Mrs. McLean, who is the most brilliant entertainer in Washington, and an intimate friend of the Hardings.

**HARDINGS CHARMING.**  
A charming characteristic of the Hardings thus far in their social career is the fact that there is not a trace of snobbishness in their make-up. Mrs. Harding seems to contrive to get the colonel's lady and Judy O'Grady together and make them both like it.

It happens that most of the women of the incoming Cabinet are also "mixers" who like to entertain. The Coolidges, the Hugheses, and the Daughertys, of course, and the Daughertys and the Falls are all charming and hospitable people.

Politicians say that a great deal of practical value comes of these big social soirees. Most of Mr. Wilson's failures were doubtless due to his refusal to mix with people, where he could find out what the United States was thinking about. As a result of shutting himself in he had no means of getting in sympathetic touch with his fellowmen.

Last night the White House was blazing with light and color. At the new Wilson home on S street there was no light except a tiny spark that seemed to come from the hall. It was a symbol of the change.

Washington is beginning a good, honest, friendly round of "main street" parties. And the air in consequence is considerably fresher already.

### Experienced Mothers know the wisdom of assisting nature before Baby's coming

It is natural to think of the expectant mother's influence upon the unborn babe. Her food, her habits, her hygiene, and even the condition of her mind, all have a part in determining the well-being of the baby before birth.

Mothers are aware of the joy of seeing motherhood should allow the days to pass without giving nature a helping hand—because the conditions of pending motherhood, existing as they do, over a protracted period of months, create almost a new state of being for a woman.

Just as she prepares herself for the new life, so will most favorable conditions prevail when her child is born. Mother's Friend is a balm for the nerves, an intensely penetrating lubricant that softens the muscles, relaxes tension of the delicate organism involved in maternity, and prepares the way for an easier, quicker and practical delivery.

### PHOENIX TAKES BUILDING SPURT.

Paving Being Rushed as Fast as Possible.

Builders Guests of Exchange at Tucson.

(SPECIAL CORRESPONDENCE.)  
PHOENIX, March 8.—In February building permits here aggregated \$108,000, and in the first days of March permits already are half that sum. Paving is proceeding as rapidly as materials can be secured, though some difficulty has been experienced by the contractors in securing buyers for their bonds. Paving work now furnishes employment to 150 men.

Another indication of prosperity here is the success of the campaign for expanding the work of the Chamber of Commerce, which has nearly 1000 members.

Phoenix is preparing to have downtown streets and will install electric lights wherever the paving extends.

Meas has secured carrier delivery of mail, with two routes, these in addition to several rural routes.

Clifton has installed a modern motor-driven fire engine, at a cost of \$12,000. Special fire-alarm phone boxes have been placed at eight points within the town. A paid fire department will be on duty constantly.

At Kingman, the Mohave County Supervisors are building a concrete hospital, 125 by 125 feet, containing thirty private rooms, a large ward and offices.

#### SEVERAL BILLS PASS ARIZONA LEGISLATURE.

HOUSE FINISHES APPROPRIATION MEASURE; HUNDREDS OF THOUSANDS ADDED.

(SPECIAL CORRESPONDENCE.)  
PHOENIX, March 8.—The House this evening finished the appropriation bill, adding several hundreds of thousands of dollars and restoring support of the State Historian, omitted in the original draft.

In the Senate the main fight was over the State's part of the school fund, alleged an imposition on the mining counties. There was final agreement on \$10 per capita from the State, this being about half the cost of maintenance of a common school pupil.

The bill permitting county referendums on the question of the sale of tobacco was lost by a tie vote, and a bill exempting new homes from taxation for five years also was killed. The inheritance tax practically was defeated.

The Senate passed a House bill recognizing chiropractic, but forbidding practitioners to designate themselves as doctors. There is to be a controlling commission.

The Senate also passed a House bill giving reciprocity to the restriction of bag diseases. Other Senate bills passed permit payment of as much as \$1000 in fines on State warrants, when necessary, and forbid deposit of State funds in any bank except the bank of the capital and surplus.

ONE-TIME EFFICIENT DEPARTMENT WRECKED BY REORGANIZATION.

(SPECIAL CORRESPONDENCE.)  
MILWAUKEE, March 8.—The Milwaukee police department, for many years ranked as one of the most efficient in the country, was nearly a total wreck when Mayor Hoan finished with it this afternoon. Under the fire of the Mayor, Captain of Detectives John T. Sullivan resigned, his father, Dennis Sullivan, dean of the city detectives, announced that he would step out April 1, and four other detectives operating out of central headquarters will be let out at once.

Capt. Sullivan was charged by the Mayor with conspiring in the disposal of illegal liquor to Milwaukee saloons, with allowing downtown hotels to run on an immoral basis, and with having cafe men buy securities from a bonding-house he was interested in.

THELEN HITS AT  
EXTRAVAGANCETells Senate How State Can  
Save \$8,146,851.50.Former Head of Railroad  
Commission Has Figures.Shows Remarkable Insight  
into Government Affairs.BY KYLIE D. PALMER.  
(SPECIAL INVESTIGATION.)

SACRAMENTO, March 8.—Max Thelen, former president of the State Railroad Commission, today upset the State administration's apple cart, turned the political head inside out and cast a bright light on the patronage trough.

Addressing the State Senate upon the matter of economy, he made good his assertion that he could show savings in excess of \$8,000,000 in the administration's proposed \$11,000,000 budget.

He made good clear down through the \$5,000,000 to the last 60-cent piece. Thelen gave the State budget the same kind of treatment that the State of California has given to the State of California.

He did not hesitate to speak with authority and when his authority was questioned he showed the Senate his acquaintance not only with the budget itself and all of its related and unconnected items, but also with the knowledge of Federal, State, county and municipal government affairs.

Like skilled surgeon. He more resembled a skilled surgeon manipulating a keen scalpel than a butcher wielding a meat ax as he furnished a constructive reason and not a fault-finding excuse for the eliminations he recommended.

What will the administration do to offset his convincing arguments? Almost any excuse will serve some of the partisans who might wish the budget investigation to develop into a farce, they have sought to make it, but he who runs may read what Thelen had to say.

Wholly absent from Thelen's delivery were the tricks of oratory and politician's reasoning. He spoke as a business man thoroughly acquainted with the subject to which he addressed himself and also as a citizen earnestly and sincerely interested in accomplishing a good result.

Thelen, who gave nearly ten years of his life to public service, discussed government functions as an expert. He made no guesses and arrived at no speculative conclusions. Here is a portion of what he said, straight-forward talk, straight from the shoulder:

**THELEN'S STATEMENT.**  
"After a very careful analysis of the proposed budget of \$11,000,000, I make the statement that this budget can and should be reduced at least \$8,146,851.50."

Here was a good point to pause and look around triumphantly, for Thelen had just made a statement that the State of California was over budget by \$8,146,851.50.

He set forth succinctly his reasons for determining the various items slated for elimination or reduction. He cut out a number of new jobs and recommended against certain salary increases, permitting a saving of \$1,711,152. If that failed, he said, a five-budget board to allow for

the benefit of those who may be at the highly specialized services, the company are expensive, the announcement is published. The fees for trust services are generally less than would be charged by an individual.

Company charges are exceptionally high character of the service is a service that embodies efficiency, responsibility, efficiency, economy and economy.

Companies are under State and Court supervision—and the Probate Courts of the Union approve of trust companies and management of property.

Milling costs opened the way for a further cut of \$112,285. Under the heading "other expenses" they appeared and maintenance expenses," he discovered a saving of \$1,144,336. He found that \$1,681,440 could be trimmed from the budget by abandoning or deferring new building projects and proposed purchase of land and another item was recommended to be dropped off in the sum of \$100,816 proposed for new or additional State functions or aid. Certain proposed permanent improvements for the University of California and for various State institutions, amounting to \$2,311,977.50, he suggested be included in a \$10,000,000 bond issue mentioned by Gov. Stephens in the executive's biennial message to the Legislature.

Thelen's averted \$100,000 which, according to statements made by Clyde L. Seavey of the Board of Control, will be saved to the State through the adoption of the program of governmental reorganization recommended by the Governor.

**KNOWLEDGE OF DETAIL.**  
When he discussed the budget he did so with perfect familiarity and disclosed a remarkable knowledge of detail when he called attention to various items not mentioned in the report or errors due to clerical mistakes.

Commenting on the activities of the State Health Department, he showed where this department alone seeks to duplicate work done, first by the Federal government, second, by the county government and third, by the State government.

Senator Rominger of Long Beach, whose activities in behalf of economy in government have caused him to be mentioned as a likely candidate for Lieutenant-Governor, commended Thelen's presentation as follows:

"For weeks we have heard from the public platform and from the legislative floor, that the budget cannot be cut. 'We need the money,' and 'pass the King bill.'"

"And with well-prepared program by those self-same supporters of the Governor's high cost of government, clients and business men have been forced into a hearing before the State Senate for one purpose only, and that, presumably, to punish some one for intemperately informing the public of the great waste of public money in the hands of the present administration forces."

Today, within fifteen minutes of presentation of actual facts by Max Thelen he has shown conclusively a net saving of more than \$8,000,000—not eliminating a single necessary State function.

**CALL TO ACCOUNT.**  
"It is high time the people arose to hold common sense and honesty to our Legislature and State government officials to an account—and thereby call a halt to this high and unnecessary expenditure of public money."

There has been a marked tendency on the part of some administration supporters to assume the attitude that witnesses called before the Senate were on trial and this assumption included a tendency to render a verdict before the evidence was in.

Scarcely less powerful than Thelen's deductions, in logical arrangement of the State government was the statement made by Frank Karr, general counsel for the Pacific Telephone and Telegraph Company.

"I am not here in any critical spirit," said Karr, "but I think the time has come when we should check up and take note of our conditions and learn where we are going to land in the long run."

"I believe there is a lot of slack in the conduct of the business of this commonwealth, which you gentlemen can take up, and that is all we are asking you to do."

Karr criticized the assembly by exclaiming: "This whole investigation is being resisted by this department and by that department because, maybe, retrenchment means the dropping of their activities. You are going to meet resistance in every department."

**INMAN REPLIES.**  
Senator Inman, who is running for the race for the informal leadership of the Senate since President pro tem Breed of Oakland stepped from the administration fold to fight the King bill, here interposed.

"Mr. Karr, I want to say this to you. I believe you are absolutely and eminently correct in your statement. The first half of this session of the Legislature I introduced a resolution to deal with the very thing because I knew if we were going to do what the people were demanding, that is retrench and consolidate the State government, we would have on our ears every commissioner and every employee whose toes were trod upon and I introduced a resolution requiring them to stay on their jobs, and cease lobbying on these bills. Unless we shut our eyes, they are going to swerve us away from our purpose of economy in this State."

This frank outbreak which did not contain a disclosure that the resolution was defeated, called forth the following comment from Senator Sharkey:

"I submit that this committee is wasting a lot of valuable time of the State of California investigating this budget, bringing Mr. Karr and other gentlemen before us, and if Senator Inman's statement is correct, the very people we are seeking to aid here are blocking our efforts. Now, if that is true, I suggest that the investigation come to a close immediately or that the State departments themselves be put upon the carpet instead of the gentlemen representing the utilities."

The State Assembly met tonight to hear Thelen outline his suggestions for budget reductions.

And despite the memorable events that are transpiring here, not forgetting that Champ Vance, vice-president of the Los Angeles Gas and Electric Company, wants to go home, and can't because Lieut.-Gov. Young required him to remain in Sacramento to help run the government, Los Angeles legislators are excited over the possibility of prevailing upon Frank B. Silver to run for Mayor. They are thinking of

**EVENING SESSION.**  
At the evening session of the Assembly, sitting as a committee of the whole on the budget, Thelen was the first speaker asked to appear.

He outlined his work and employment much as he had done in the Senate earlier in the day, and repeated his recommendations for reductions in expense. He then took up the various institutions one at a time, beginning with the University of California, for which he recommended two changes.

These were the elimination of an item for the University of California at Berkeley which, he said, could probably be as well done at the State farm at Davis, under university direction, and within the limits of the funds sought for the farm; the other was an item of \$100,000 for treatment of dependents at the medical college. Thelen said he had been unable to learn whether this item was for the medical care of the State wards, but if it was he thought the charges ought to be assessed against the patients, even when the patients came; if it was a new function, he said, it would be deferred until more normal years.

He also suggested the propriety of transferring four items for new buildings at the University to a proposed bond issue, so that their entire cost would not fall within one biennium.

**STATE HEALTH BOARD.**  
Thelen then took up the requests of the State Board of Health, and presented figures and arguments to show that a number of additional salaries and functionaries were included in their requests for the next biennium, that did not show on the surface of things. He specified various activities that he said were duplications of Federal work, and others that he said were properly the duties of county or city governments.

Thelen said that the State Board of Health, which he said was \$27,125. This board, he said, was a duplication of Federal work, and others that he said were properly the duties of county or city governments.

He turned to the State corrective schools, including the Ventura school for girls and the Fresno and Whittier schools for boys. He said these three were the "most extravagant" in the United States.

When he went to the State school for the blind, he called attention to large requested increases in the salary lists which, he said, were needless in the face of falling markets.

commissars and Communists and also captured two icebreakers between Petrograd and Kronstadt. The Kronstadt revolt is a serious threat to the Russian government, and the Russian government is doing its utmost to suppress it.

**REDS RUSHING TROOPS.**  
(BY CABLE AND ASSOCIATED PRESS.)  
WARSAW, March 8.—Strong detachments of Russian Bolshevik cavalry commanded by Gen. Budenny are being rushed from South Russia to Moscow to crush the insurgents, who are said to be gaining in power daily in the Russian capital.

**HUNDREDS KILLED.**  
(BY CABLE AND ASSOCIATED PRESS.)  
LONDON, March 8.—During a recent bombardment of the workmen's quarters in Moscow from artillery placed on the hills overlooking the city, says a Central News dispatch from Helmsingford today, several hundred persons were killed and numbers of others wounded.

More than 100,000 men and women, the dispatch asserts, are now on strike in Moscow. The bombardment, says the message, followed a call for a general strike issued by leaders of the workmen and a demand for the immediate convocation of the constituent assembly.

Moscow wireless today says the food and fuel situation in Kronstadt is hopeless and that dissolution among the insurgents is increasing. The conflict between the rebels and those desiring to negotiate with Finland for assistance is becoming more acute, the message asserts.

**NOT FIRST UPRISING.**  
(BY A. P. NIGHT WIRE.)  
NEW YORK, March 8.—The anti-Bolshevik uprising in Russia is not a new movement, but one of a series of uprisings which occurred the last three years and remained hidden under Soviet censorship, Sir Paul Duke, former British secret service agent in Russia, declared today.

Sir Paul, who spent more than two years in Russia disguised as a Russian workman, is here on a visit. After having spent most of his life among Russian people, he volunteered in 1918 to replace the British naval and intelligence officer, who was killed in Petrograd. He carried on his work in disguise.

The first uprising, he said, occurred in 1918 when two Communists were murdered by workmen. As a reprisal, Zinoviev, president of the Third International and favorite of the ruffianly elements, ordered 500 persons shot.

Three more uprisings, he added, occurred in 1919, the first in March when 200 workmen were ordered short and the families of those who escaped were seized. A second outbreak in July was quelled, he pointed out, "by mercenary Chinese and Latvian troops with many casualties."

In October a delegation of workmen left Petrograd to meet counter-revolutionary troops of General Yudenitch, then close to the city. One hundred and eighty-nine workmen were shot, Sir Paul stated.

Dissection among the sailors displayed itself early, he pointed out, and continued to show itself from time to time, notably at the approach of the British fleet to Kronstadt in 1919. Uprisings in 1920 were sporadic, he asserted, and hampered by counter-revolutionary troops outside Russia, such as those of Wrangel, which routed remnants of the peasants and workmen.

Sir Paul declared it was his belief that the workmen, sailors and peasants only awaited disappearance of these counter-revolutionary troops to start the present uprising.

He told of a resolution adopted by 10,000 workmen at the Pullout from London with only fifteen dissenters, which called for free press, speech, meeting from electricity by person, freedom of movement and abolition of the death penalty and torture.

These workmen declared, he explained, that the Bolshevik dictator ruled autocratically through the extraordinary commission, the Czar's secret police and gendarme detachments.

**PUT FORWARD DEMANDS.**  
"On each occasion," he said, "the workers have put forward economic and political demands. They clamored for the restoration of the co-operative societies, attributed the food crisis to the Bolshevik food system, which prevented free trading between towns and villages, and demanded free electricity for power and liberation of their comrades."

During the revolt of March, 1919, the workers were refused admission to Lenin to present their demands and reported, he added, that "it was easier to gain access to Nicholas II than the President of the Soviet Republic." The sympathy of the workmen was lost to the Bolshevik government, Sir Paul declared, and it quarreled with the Socialist revolutionary party over the Bolshevik land policy and the Brest-Litovsk Treaty.

**REPORT NEW LAW TO REGULATE OSTEOPATHS**  
BILL IS COMPLETE AND WOULD REPEAL ALL STATUTES IN CONFLICT.

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, March 7.—A new general law providing for the licensing and regulation of osteopaths was reported out today by the Assembly Committee on Medical and Dental Licenses. The bill was introduced by Assemblyman West of Sacramento. It is a complete act and would, if made law, repeal all existing statutes in conflict with it, and relating to osteopathic questions.

The new act revises educational requirements, provides two classes of certificates, takes care of the automatic admission of qualified persons here when it becomes effective, or coming from other recognition of licenses in certain cases and for penalties for wrongful acts by practitioners or others.

The Florida lands in New England, the banks of running streams where water could turn the wheels of their primitive factories and mills. Later, when these powers had been developed for a growing industry and commerce came into use to augment the power of the mills. ## NEW YORK STOCK EXCHANGE

(BY A. F. NIGHT WIRE)

NEW YORK, March 8.—In the further absence of helpful or constructive factors, today's stock market was again largely influenced by professional interests, whose operations affected additional impairment of prices.

The more acute phases of the European situation were developed in the foreign exchange market. Resistance to London, Paris and most other continental points yielded more or less sharply to extensive offerings, partly of a speculative character.

Conditions affecting home market afforded little ground for encouragement. Further wage cuts by the railroads were accompanied by similar action by the packers. Railroad, as well as industrial com-

## FINANCIAL AND TRADE REVIEW

(Continued from Preceding Page)

year, until now, for the noncommenced jobs, it is probable that the average is nearly 100 per cent higher.

At the time of the latest call by the Comptroller a request was made for the national banks to furnish data in regard to salaries paid to officers and clerical forces.

This information was formerly available through the national bank examiners, and many banks resented the attempted extension of the Comptroller's authority.

In Los Angeles the objection did not find formal outlet, although some bankers feel that the order would force the revelation of heretofore confidential information and stir up feeling between employees and the figures should find their way into print.

The Pittsburgh clearinghouse went so far as to instruct its members not to furnish the data. Comptroller Williams defends the order in this wise:

"The primary purpose of the inclusion of the clause, apparently found objectionable in Pittsburgh, was to develop whether disproportionate increase in the earnings of banks are being expended in salaries to officials. It is difficult to understand why bankers should object to make this information public."

AS SEEN BY OTHERS.

Special legislation fixing rental and difficulties of collection are acting to discourage home-building enterprises in many cities. Decreased costs are the only remedy that promise adequate increase in construction. A beginning has been made, but further reductions are necessary before our wages are reduced. Reduced wages in many industries and others foreshadowed, can become serious evils, as they should.

5 1/2% Serial Bonds  
Maturing 1929 to 1932  
Free from Federal Income Tax as well as State, City and County Taxes in California.

Certified as Legal Investment for California Savings Banks.

We recommend these bonds for investment for the following reasons:

High land value and low debt per acre. Land appraised for the State Banking Department at \$300 per acre. High land values due to fertility of soil and ideal location of Districts, which have water, highway and railroad transportation to large centers of population near at hand. Average debt per acre, \$60.00.

Average annual tax per acre for payment of principal and interest of bonds is moderate.

Each district has been wholly reclaimed and is completely under cultivation.

These bonds combine the security of a land mortgage and the certainty of tax collection payment.

Debt reduced by annual payments without reduction of security.

### WHEN business conditions

are in the process of readjustment there is a great deal of comfort in knowing that your money is invested in sound, well-chosen bonds.

A sound bond pays interest in periods of financial stress just the same as in normal times. Corporations may not pay dividends although they continue to pay the interest on their bonds. Governments and municipalities may abandon proposed public improvements while they keep on paying the interest on their bonds. As long as the financial structure of the world holds together, the owners of sound and properly safeguarded bonds can be practically sure of the security of their investment.

The Harris Organization has specialized for more than 38 years in the purchase and sale of carefully selected bonds. During this time we have bought with our own funds over three billion eight hundred million dollars (\$3,800,000,000) in bonds. The public has shown its confidence in these securities by buying bonds from us in increasing amounts each year until last year our bond sales were the largest in our history—over three times those of ten years ago.

We should like to discuss your investment problems with you. This will put you under no obligation whatever, and we will be just as glad to talk over an investment of a few hundred dollars as one of many thousands.

# WHAT'S DOING TODAY.

**California Building Society** at 1000 Broadway, Los Angeles, will hold its annual meeting at 8 o'clock, Tuesday night, at the Hotel California. The meeting will be held in the ballroom of the hotel. The program will include a report on the year's work, a report on the financial condition, and a report on the building program. # MAIL LOSS MAY DELAY PASSPORTS.

**Applications Piled Up for Four Days Were in Stolen Registered Pouches.**

An investigation of further details of the mail robbery last Thursday evening at Alhambra, reveals the fact that all of the applications for passports that had accumulated in the postoffice from the Monday proceeding to the time of the theft of the registered pouches, were forwarded in the stolen mail. This will make necessary the shifting of a number of reservations on European-bound steamers, it is believed. It now develops that the total loss of the mail pouches was \$100,000, and that the loss of the registered pouches, coupled with the loss of the mail pouches, will amount to much more than \$100,000. There is no clue to the thieves.

# Councilman is Gratified by Hears's Howl.

"I've smoked out Hears's Examiner and Herald," declared Councilman Criswell yesterday, "and showed that they are not sincere in their attacks on Bullock. They only want to punish business men who do not advertise with them. These newspapers proposed to have a committee of business men appraise the value of the rental space over St. Vincent's Place. Councilman Criswell, at yesterday's meeting of the Council, having ascertained that the committee had motion to have the suggested committee appraise the value of the rental space over St. Vincent's Place. # THREE BONDSMEN SIGN FOR EXTORTION CASE.

George Wilson, secretary of the Wilson Land Co., qualified yesterday as one of the three bondsmen for Walter Lipp, deputy sheriff, indicted on charges of extortion and grand larceny. The other bondsmen are David McAlister, former Mayor, and George L. Lipp, Lipp's sister. The bond of Mr. Wilson was approved by Presiding Judge Sheik in the sum of \$10,000. The other two bondsmen are in the sum of \$10,000 each.

# BOND VOTE SPLIT.

Voters at Santa Ana yesterday declared in favor of increased facilities for grammar schools, but indicated their disapproval of spending more money at this time for expansion of high school facilities. Bonds totaling \$75,000 were voted for junior high schools and equipment by a majority of approximately 600; at the same time a proposition to issue \$75,000 in securities for increased high school facilities failed of passage by ten votes, the totals showing 1251 for and 655 against. In each instance it was necessary to get a two-thirds majority to carry the measure.

# UTAH MINES ANNOUNCE REDUCTIONS IN WAGES.

SALT LAKE, March 8.—Notice of a wage reduction of 25 cents a day, effective March 15, has been posted at the Murray smelter of the American Smelting and Refining Company. At the Murray plant of the United States Smelting and Refining Company, cuts of 50 cents and 25 cents are announced.

# AGREE THREE SMUGGLED IN TEN CHINESE.

**Jurors Acquit Fourth Man in Contraband Trial; Case Heard Three Times.**

After three trials the government finally secured a substantial victory in U. S. District Judge Trippett's court yesterday in what is known as the Brummer Chinese alien smuggling case, which originated in the vicinity of Bakersfield last fall when three automobile loads of contraband Chinese were captured. With them were Henry Brummer, Albert Lucia, James G. Crockett, A. H. Stevens, Bernard Collin, Jack Metz and George Smith. On the way to Los Angeles Brummer got away and was later captured in the State of Washington. A trial of the other defendants was held in the acquittal of Lucia and Smith, who were the drivers of the automobile. Then Crockett, Stevens, Collin and Metz were tried and found guilty. Brummer was placed on trial, which was the third time for all of the defendants. The jury recommended that Brummer, Crockett and Collin be sentenced to prison, while Metz be sentenced to a fine. The jury recommended that Brummer, Crockett and Collin be sentenced to prison, while Metz be sentenced to a fine.

# STATE SOCIETIES AID.

Four organizations plan meetings to boost disabled veterans' fund. The organizations are the Wisconsin and Illinois State societies of Southern California, held in the interest of the disabled veterans. The State societies are making arrangements to hold similar meetings. The Wisconsin State society is holding a meeting at the Hotel California, while the Illinois State society is holding a meeting at the Hotel California.

# LONG-DISTANCE RADIO RECORD SET BY NAVY.

San Francisco, March 8.—The world's long-distance wireless record has been broken by the United States Navy, it was reported here today, by sending messages within the duration of three minutes from Cavite, Philippine Islands, to Washington, D. C., a distance of approximately 10,000 miles. Cavite sent test messages to the Coast Island Station here, a distance of 10,000 miles. The messages were forwarded to San Diego and thence to Washington. Naval officials attach considerable importance to the record, it was said, because it indicates the abolition of the present system of sending messages by cable. It was also stated that an automatic control used in making the record will illuminate all handling of messages between original and receiving points, and will give American warships direct communication with Washington from any point within 3000 miles of a shore station.

### TAKE UP "STRAIGHT AHEAD" CRY

Adding impetus to the "Greater Southern California—Straight Ahead" campaign launched by The Times, the chambers of commerce in two important suburban cities yesterday gave the campaign their enthusiastic endorsement and have promised it their hearty support.

The Chamber of Commerce of Burbank claims the honor of having been first to catch the contagious slogan and give the campaign its immediate endorsement—a fact which means much, because Burbank is one of the wide-awake towns of the San Fernando Valley.

Only one jump behind Burbank, the town of Sierra Madre took up the campaign cry through an endorsement of the campaign by its Chamber of Commerce. At its monthly meeting the organization voiced its sentiments in favor of the "Greater Southern California—Straight Ahead" campaign through short talks by James N. Hawke, realtor; J. P. Sudler, merchant; City Clerk Louis Dietz and Mrs. J. H. Wright, secretary of the chamber.

The chamber reported that it has just launched a membership campaign to increase its size from 125 to 250 members. City Clerk Dietz declared there has been a great increase in the number of domestic water users and that consumers have made a 30 per cent increase during the year. It was pointed out that the recent organization of a volunteer fire department and the purchase of a chemical engine and hose cart are steps in the direction of a Greater Southern California. Extension of water mains is now in progress, and bonds are soon to be voted for the support of the fire department.

Any such changes being planned. Rear-Admiral Harry N. Fields, commanding the Thirteenth Naval District, yesterday said that the Bureau of Navigation of the Navy Department had announced that Rear-Admiral Joseph L. Jayne, who suffered a paralytic stroke recently, has been relieved as commander of the train of the Pacific Fleet.

Admiral Rodman did confirm the report that the dreadnaught California, now nearing completion at Mare Island, is to become the new flagship of the Pacific Fleet. The California will be commissioned he does not know, but he stated that within two months after it is commissioned his flag will be transferred to it from the New Mexico, the present flagship. He explained that the two-month delay will be necessary to thoroughly organize the crew of the new flagship for their duties.

The seven dreadnaughts of the Pacific Fleet—the New Mexico, New York, Wyoming, Arkansas, Texas, Idaho and Mississippi—surrendered by several auxiliary vessels, dropped anchor in the outer harbor at San Pedro at 8 o'clock yesterday morning, completing their two months of maneuvers with the Pacific fleet off Panama and the west coast of South America.

No celebration marked the homecoming of the Pacific Fleet. These, in compliance with the request of Admiral Rodman, will be staged next week. The landing barge at the end of First street was crowded with several hundred relatives and friends of sailors who had made the month's cruise, but these were met by disappointment for liberty parties were few. Only small parties of sailors from the New Mexico were permitted to come ashore, while the crews of the other vessels spent the day in painting and polishing their ships, several of which will continue to Bremerton to be dry docked for repairs.

### SUCCESSFUL CRUISE.

"The southern cruise was a wonderfully successful one," Admiral Rodman said, "and a very beneficial one for the men. It gave all the men the real chance of going to sea, and the admiration of the Pacific and Atlantic fleets had a beneficial effect."

"The visit to Chile was made at an opportune time. It did much in creating the friendship of feelings between the two republics and the conduct of the men left an admirable impression in the South American country."

"On our return from Chile we again united with the Atlantic Fleet. So successful were these maneuvers that Admiral Rodman, commander-in-chief of the Atlantic Fleet, and myself recommended that these maneuvers be repeated each year and this will undoubtedly be done. While in Panama on our last visit the two fleets engaged in extensive athletic contests. The men of the Pacific Fleet won more points than the Atlantic Fleet. During these contests the finest spirit of friendly rivalry between the men of the two fleets existed. It was like one big fest."

"While in Santiago the Chilean President decorated some of our officers with the order of Almerite, and in Panama the President decorated the two commanders-in-chief with the order of El Solido."

"On our way up the coast the flagship stopped at Pichilique Bay and Magdalena Bay, where the men participated in hunting and fishing. "It was a most wonderful trip but we're all glad to get back."

### MR. CHAPPELLET'S ILLNESS.

Mr. Felix Chappellet, field superintendent of the General Petroleum Company, and very much one of the cleverest and most expert oil men on the Coast, is seriously ill at his home, No. 518 South Virgil avenue. He contracted his trouble during a recent trip to Mexico.

### NEW DIRECTORY SHOWS BIG GROWTH BY CITY.

Increase of Hundred and Twenty Thousand in Fourteen Months Indicated; Smith Family is Still in Lead.

The new City Directory, which is now in press and which will be ready for delivery in a fortnight, shows an increase in population for the city of Los Angeles of, roughly, 18 per cent since January, 1920, when the last directory was issued. The population indicated by that directory was 671,929, 18 per cent of which is 120,947, indicating a present population of 792,876. Or, taking the Federal census of 1920, which showed a population for Los Angeles of 576,673 on Jan. 1, 1920, approximately the same date as that on which the 1920 directory was issued, an 18 per cent increase would mean an addition of 103,801 persons and a present population of 680,474. If the first figure is correct Los Angeles is now the eighth city of America. The Federal census estimate for 1921 gives Baltimore but 751,537.

But only one Johnnie Smith. The Johnsons and the Browns are nip and tuck for second place this year, with the Johnsons 4319 strong and the Browns, 4286. However, this year the Johnsons are the strongest of the Johnsons and the Browns. And how the once mighty have fallen—the Joneses scarcely able to muster 3200 of their clan!

Los Angeles boasts a Woodrow Wilson, the new directory showing that a gentleman with that name is a photographer in San Pedro. Not quite able to do full honors to Harding, the city, nevertheless, has a Marion Harding, which shows that it is almost up to the second.

And, in spite of what is supposed to have happened to John Barleycorn, the city boasts such running mates of his as these: Glen, Champagne, Sauerbier, Booz, Beer and Beery.

### WIDELY-KNOWN "OLD TIMER" PASSES ON.

Herman C. Stone, assistant postmaster of San Diego from 1898 to 1903, died at his home at 928 Broadway street, this city, last night at the age of 76. He had been a resident of Los Angeles for eighteen years and was well known among old-timers of San Diego and this city, having come from his native State, New York, in the early days. He leaves a daughter, Mrs. Homer Lee Hatch of this city, and a sister, Miss Albertine Stone of Washington, D. C. Funeral arrangements will be announced later.

### WOMAN FIGHTS COURT GUARDS.

Sheriff and Deputies Given Tussle by Mrs. Gossard.

Defendant Charges Plots to Get Valuable Patents.

Has Papers to Show Receipt of Royalty Payments.

Remoaning her fate, abusing her accusers and fighting the officers, Mrs. Sarah L. Gossard of Chicago was carried to the woman's ward of the Riverside Jail on a stretcher after her preliminary hearing in the court of Justice Hibbard at Riverside yesterday morning.

Mrs. Gossard battled with Sheriff Wilson until it was necessary for the official to call two deputies to his aid, and it was then some minutes before she could be subdued. She injured that one of the victim of a plot and that the charges of defrauding a hotelkeeper, which have been filed against her, are the outcome of a plan sponsored by her husband to defraud her of valuable patents held in her name.

The woman says she is the wife of James W. Gossard who for years was secretary of the Gossard Corset Company of Chicago, and that just recently he disposed of \$50,000 worth of stock in the corporation.

She asserts that she owns some valuable patents and that it was the intention of her husband and herself to establish a factory in California, that the husband is now in Los Angeles at an address unknown to her and that he is allowing her to be thrown upon her own resources at this time in an attempt to force her to sign over her patents.

The arrest was made upon affidavits filed by James Hamilton and H. M. O'Malley who conduct the Anchorage, one of the fashionable apartment hotels of Riverside. It is charged that Mrs. Gossard owes a bill exceeding \$250 and that property left in possession of the hotel proprietors is worth less than \$100.

She was arrested at Venice, where a daughter, and will be held in the County Jail at Riverside until Friday morning in order to afford an opportunity of attempting to find her husband before the court passes sentence.

Mrs. Gossard told the court yesterday that she came to California in January with her husband with the understanding that if the climate was agreeable, arrangements would be made to establish a factory here. She has in her possession correspondence which shows that she has been paying her a monthly royalty on patents she owns and that the Chicago firm has made her offers to use the name "Gossard" in connection with corsets made by her.

She asserts that she left the Riverside hotel after her husband had told her he had given the proprietors a note for the amount of her bill. This is denied by the hotel men who say that the only paper they were successful in getting Mr. Gossard to sign was a statement that the woman was his wife and that he would be responsible for her indebtedness.

An effort is being made to locate Mr. Gossard in Los Angeles through a detective agency which the wife says knows of his whereabouts.

### HIRED BY "BIG HUTCH."

Paul Schenck Announces He Will Handle Bunko Charge Defense.

Paul Schenck late yesterday announced that he had been retained to defend Everett A. ("Big Hutch") Hutchings, who was indicted on a new charge of embezzlement, Hutchings surrendered himself yesterday, following the bringing in of the indictment whereupon he is accused of having swindled John Swanson, retired farmer of Nebraska, out of \$20,000. He was out on \$50,000 bail furnished on a previous charge of defrauding J. N. Noris out of \$51,000.

### CHURCH SITE BATTLEFIELD.

A suit aggregating \$28,000 damages, growing out of the demolition of the Methodist Church at Sixth and Hill streets and the sale of the material, on trial in Judge Cralf's court, introduces Burns detectives as an element of the unusual action.

The suit was brought by F. D. Mathews, the contractor, against the Hill Street Fireproof Building Company, J. B. Grauman, Sidney Grauman, Neil S. McCarthy, S. Shapiro and N. Salmon. The lumber, as it was taken down, was neatly piled on the church premises. Under an agreement with the defendants, they were to receive 60 per cent of the purchase price of the lumber.

Mr. Mathews complains that Burns detectives were employed; that he was ejected from the premises, the neatly piled lumber, worth \$3000 then, now worth not more than \$200, was thrown into the cellar of the church at night. He also states that there were 1,000,000 bricks and property valued at \$40,000 on the premises which he is not permitted to move.

The defendants set up that the contract provided the contractor was not to move the material from the church grounds until they received their 60 per cent of the purchase price. They assert material was being sold and the percentage was not being handed over.

Mr. Mathews contends that the money he did receive was merely a bond or security for the full payment of the cost of the material sold.

### CIVIL WAR VETERAN DIES.

Samuel E. James, 80 years of age, died yesterday at the home of his son, Harry N. James, 617 Vine street. Mr. James served in the Tenth Iowa Infantry in the Civil War, and was so badly wounded at the Battle of Cherokee, in Alabama, that his right leg was amputated. He leaves one daughter and six sons.

## FRENCH CHEF IS GENEROUS.

Man Who Serves Best Meal in Chicago Tells Ways.

Two Secrets of Cooking Veal Bring Fine Flavors.

Makes Specialty of Sole and of Simple Desserts.

BY CHEF A. L. WYMAN.

(SPECIAL CORRESPONDENCE.)

CHICAGO, March 8.—On the South Side, in an old brown stone front house, which was once part of the fashionable residence district, is to be found one of the best diners served in this large city. This cafe has no menu and if you would partake of the excellent food served you have to telephone for a reservation at least six hours in advance. The chef, who is the owner, serves a true French dinner, perfectly balanced, and with garnishings and seasonings that make the French (1) diners served in Greek and Italian cafes appear a nightmare. We were invited to visit this cafe and have dinner the other night and in conversation with the chef I obtained the recipes and the right to pass them on.

This is the menu, in English:

Radishes Hearts of Celery  
Fillet of Sole, Egg Sauce  
Saddle of Veal, Provincial  
Chicory Salad—Rice and Fruit  
Pudding

Coffee  
For the soup, boil one cup of tapioca in six cups of water, season with salt and pepper. Place in the bottom of a soup tureen three tablespoons of butter and two egg yolks, pour the boiling tapioca over and add two cups of hot milk.

HOW SOLE IS COOKED.

For the fillet of sole, sprinkle the fillets with salt, pepper and a little allspice; place in a pan with four tablespoons finely chopped onion, a teaspoon of chopped parsley and four tablespoons olive oil. Fry to a nice brown, place on a hot platter, garnish with lemon slices and sprigs of parsley. Serve egg sauce separate.

For the egg sauce, place in a saucepan one tablespoon of butter and one tablespoon of flour and when well blended, add one cup of milk. Cook until smooth and thick, then add one finely chopped hard-boiled egg and season with salt and white pepper.

The saddle of veal should be trimmed by the butcher so that it

## WILL ARGUE MOTOR LAWS.

At an open hearing before the joint Motor Vehicle Act committee of the Senate and Assembly tomorrow night at Sacramento will come up for discussion important questions pertaining to the new Motor Vehicle Act for 1921, according to word received here by officials of the Automobile Club of Southern California.

The purpose of this hearing will be to give all interested motorists an opportunity to express themselves in regard to certain vital questions concerning their interests which will be included in the new act. It is hoped by Automobile Club officers and members of the Motor Car Dealers' Association that all disputants will go to Sacramento and put themselves on record at this time if they feel they are not going to be satisfied with the policies advocated by either the club or the association.

Questions in regard to the gasoline tax and future license tax will be open for discussion and suggestions for dimming glaring headlights will be entertained. Trucking interests will be welcomed to express themselves in regard to the curbing of truck speed on the highways. Chronic pedestrians, unless they register a strong complaint tomorrow night, will in all probability be required, where there are no sidewalks, to walk on the left side of the road.

David R. Faries, representing the Automobile Club of Southern California as general counsel, will be present in the committee meeting, as will David Smith, president of the Motor Car Dealers' Association. According to word received here yesterday from Mr. Faries, it would be desirable to have a good showing of persons present interested in securing the adoption of correct automotive measures and the defeat of all others.

Some slices of boiled potatoes and a tablespoon of chopped parsley; let stand for five minutes. Season with salt and remove from the fire and stir in one egg yolk beaten with a teaspoon of cold water and a few drops of lemon juice. When the egg has set turn out and serve. For a nice luncheon dish of veal have the butcher cut the cutlets of veal, four of them beat flat and even. Mince fine the other cutlet and add one tablespoon of minced suet, six minced anchovies and season with salt, pepper and mac. Spread this mixture over the four cutlets and roll them up; dip in beaten egg and then in bread crumbs. Let stand a few minutes and dip in egg and roll in bread crumbs again. Stew in rich gravy with a tablespoon of walnut pickle and a half cup of orange juice. As Good Friday will soon be here I will give a recipe for hot cross buns. These are so good that they should be served on other days as well. Dissolve two cakes of yeast and two tablespoons of sugar in two cups of lukewarm milk that has been scalded and cooled. Beat into this three cups and four tablespoons of flour and beat until smooth. Cover and set in a warm place, free from draught, for one hour or until light. Beat to cream a half a cup of butter and two-thirds cup of sugar and add with two-thirds cup of seedless raisins and four and a half cups of flour, mixed with half a teaspoon of salt. Turn out on a floured board, knead lightly and place in a greased bowl. Cover and let rise until double in bulk, or about two hours. Turn out and shape into buns, place in a well-greased pan about two inches apart and cover and let rise again, about one hour. Beat an egg with a tablespoon of water and brush over the buns. With a sharp knife cut a cross on top of each bun. Bake twenty minutes. Just before removing from the oven, brush with sugar moistened with water. While hot, fill cross with plain white frosting. Stir until it boils. Place in this

Learn Parole Was Revoked at Hearing in Her Absence.

Court Finds Action Outside Sphere of Prison Board.

As the result of a ruling yesterday by Judge Reeve, Mrs. Blanch Cloud, a former circus rider, may yet be able to complete the romance of her life outside of prison bars. While serving a term of sixty days in the City Jail for petty larceny, she was charged with violation of her parole from San Quentin prison by marrying J. C. Cloud, whom she met while they were both in the penitentiary, and by failing to report to the State parole officer, who has been opposing her return in order to be here with her young son. By questions asked by George Shreve, defense attorney, of Roy E. Langworthy, assistant State parole officer, it was learned that Mrs. Cloud's parole was revoked on January 13, at a hearing at which she was not present and that six days later the period of her parole expired. The court held that the State Board of Prison Directors could not revoke the young woman's parole while she was not present, and granted a writ of habeas corpus in her behalf. He then remanded her to the custody of the Chief of Police to serve out the remainder of her term in the City Jail. This means, it was stated, she will not have to return to the prison from which she was once released. Her husband is accused of assault with a deadly weapon and will appear before Judge Willis for a hearing. His parole from San Quentin has expired and he is not up for violation of parole.

## URGES SUPPORT FOR EYESIGHT CAMPAIGN.

Declaring many of the inmates of the jails, public almshouses and asylums are suffering from defective eyesight, Dr. Edward A. Morrissey, speaking at a mass meeting of motorists in Long Beach last night, urged solid support of the league for the conservation of vision. He told of the campaign which the league is to conduct to acquaint the public with the importance of properly caring for the eyes. Dr. William Kinney and Glen Winslow also spoke.

## WOMEN TO GET CAMPAIGN TIPS.

Clare Woolwine Will Talk to  
G.O.P. Study Club.

Mrs. Swindell Announces She  
is Council Candidate.

Plan Colorful Easter Program  
at Owensmouth.

BY MYRA NYE.

"Municipal Offices and Officers" is  
the subject upon which Clare Wool-  
wine will speak at 2:30 p.m. Friday  
before the Republican Study Club,  
in the Union League Club auditor-  
ium.

Mr. Woolwine will define the qual-  
ifications supposed to be possessed  
by candidates for office and give de-  
tails regarding the conduct of city  
primaries and elections, as well as  
information as to the preparation  
of petitions and other essentials in  
a municipal campaign and election.

Mrs. Florence Collins Porter will  
preside. Preceding the speaker  
there will be a brief discussion of  
current politics by Mrs. Frank A.  
Kelly. Visitors are welcome.

Owensmouth Women's Club.

Easter sunrise services will be  
conducted in the Greek Theater at  
Owensmouth, as usual this year, with  
a program under the direction of  
the Women's Club of Owensmouth.  
Sunrise is at 5:47 o'clock. This  
is the fifth year that these services  
have been conducted.

There is no more beautiful sight  
in California than the San Fernando  
Valley at Easter time. Then the  
fruits and flowers are in bloom, and  
the fields are gleaming with brilliant  
pepples. It is a festival of bloom,  
symbolic of Easter.

One of the features of this year's  
services will be a processional of  
eighty young women of the San Fer-  
nando Valley, clad in white. As they come  
in they will sing "Angels, Roll the  
Rock Away."

The president of the club is Mrs.  
W. E. B. Bechtelheimer, the origina-  
tor of the Easter services. Van  
Nuy will lead a chorus of thirty  
girls and Mrs. Constance Balfour  
will be the soloist.

There will be special Pacific Elec-  
tric service to Owensmouth for the  
services.

Community Service.

President Harding has given his  
heartiest endorsement to the national  
campaign for thrift, and has sug-  
gested that the work be carried on  
with greater intensity. To this end,  
the Council of Community Service is  
arranging a speaking campaign  
throughout Los Angeles county, with  
Mrs. Frederick A. Dow of Chicago  
as official speaker. Mrs. Dow has  
been State chairman of the Il-  
linois Federation of Women's Clubs,  
State chairman of the Women's  
Division, Council of Defense  
for Illinois, and is a member of the  
educational committee of the  
G.F.W.C.

Mrs. Dow has already spoken be-  
fore the Friday Morning Club, Pacifi-  
cans Shakespeare Club, Los An-  
geles Ebell, Wednesday Morning  
Club, Covina Monday Afternoon  
Club and the following chapters of  
the Daughters of the American  
Revolution: Monrovia, Alhambra,  
Covina and Los Angeles.

Engagements for her to speak may  
be made through the Council of  
Community Service, 214 Coulter  
Building.

To Run for Council.

Mrs. G. M. Swindell issued the  
following statement yesterday:  
"Owing to the pressure brought  
to bear upon me to serve as one of  
the three women candidates for  
City Council, I am compelled, though  
reluctantly, to withdraw from the  
campaign for the presidency of the  
Los Angeles District, California Fed-  
eration of Women's Clubs."

"I desire to thank the clubs that  
have endorsed me for the district  
presidency, and assure my friends of  
my appreciation of the support they  
have accorded me up to this time;  
and I hope that they will be equally  
gracious in supporting my candi-  
dacy for the Council."

"Women serving in the Council of  
Los Angeles have a wonderful field  
of opportunity for service to women  
in general, to the best interests of  
the home and the schools, and more  
particularly, to promote actively  
the best interests of our commu-  
nity."

"We have struggled for many  
years for suffrage, and while I have  
some hesitancy in adopting the  
candidate for a public office, to be  
consistent with suffrage we must  
share the responsibility, and I  
called upon to serve we must be  
prepared to make the sacrifices en-  
tailed."

"I appreciate the responsibility I  
am assuming, particularly because  
of my selection as one of the three  
candidates of the women of Los  
Angeles, and I sincerely hope that  
during the campaign I may have the  
loyal and wholehearted support of  
the home, business and clubwomen.  
And if I am fortunate enough to be  
elected, I hope that I may continue  
to have their counsel and assist-  
ance."

Drama League.

The Los Angeles Drama League  
will hold an open meeting at 2:30  
p.m. tomorrow in room 405 Brad-  
shaw, when Miss Rita Weisman will  
be guest of honor. Miss Weisman's  
play, "The Acquittal," is now on the  
boards at the Majestic Theater. She  
is also well known as a short  
story writer. She will tell of her  
New York successes of this season  
tomorrow.

## Declines Offer of Attorney; No Probation Plea.

Frank Wooler, accused of bur-  
glary of the room of Leung Bang,  
903 South Olive street, on January  
15, declined the offer of Judge Wil-  
lis to provide counsel for his de-  
fense, when the case was called yes-  
terday. Wooler pleaded guilty. He  
also declined the suggestion of Dep.  
Dist. Atty. Powell that he might file  
an application for probation.

"No," insisted the defendant.  
"There is no use; I have been con-  
victed twice before."  
The defendant said he obtained  
only a revolver from the room bur-  
glarized. He will be arraigned to-  
day for sentence.

Stage Demonstration Favoring New Schools.

Charge Prisoner with Stealing City Automobile.

Too Much Remedy is Cause of More Pain.

(LOCAL CORRESPONDENCE.) PASADENA, March 8.—Patrons and pupils of the Washington public school paraded through the streets today and then to the offices of the Board of Education in a demonstration for a new schoolhouse. Spokesmen for the parade urged the board to call a school bond election. Board members assured the throng of its sympathy, but reminded the petitioners that if another bond election is called the citizens in favor of it will have to work harder. The board bond issue was up, the delegation was told, there were more Washington residents against than for the improvement.

Representatives of the Shakespeare Club and Civic League, women's organizations, were also present at the school bond issue. No action was taken by the board.

STOLEN CITY AUTO, CHARGE. P. S. Kras was arrested at a garage near Bellevue Drive today on a charge of stealing a small automobile belonging to the city of Pasadena. It was taken from the street near police headquarters. It was traced by a defective wheel track.

TOO MUCH REMEDY. To ease hurts on his body, arms and legs, Willard J. Beckman, a student residing at 65 Parkwood avenue, applied too much iodine that he nearly burned himself to death. He was taken to the Emergency Hospital, where counter-active measures for relief from his "cure" were taken. He is now out of danger, but not yet out of pain.

BUSINESS IMPROVING. Business is steadily improving in the East, declared R. H. Collins of Detroit, president of the Cadillac Motor Company, who is a visitor here.

"There is no doubt about it," said Mr. Collins. "Conditions are getting better every week. The improvement is not as rapid as many people would wish, but we must remember that the time will be righted in twenty-four hours."

## BIBLE AS PROOF.

Heir to Baker Estate to Produce Old Family Relic.

(LOCAL CORRESPONDENCE.) SANTA MONICA, March 8.—George W. Robertson of 1310 Seventh street, Santa Monica, today made the assertion that he is a direct heir to the \$500,000 estate left by Col. Jacob Baker of Philadelphia, and is making negotiations through his lawyer, Mos Fogel, to prove his claim.

He will do this, he declares, through an ancient family Bible, which his mother, Mrs. Mary Robertson of Modale, Iowa, has in her possession.

In it is a complete history of the Robertson family, showing that the Santa Monica man is a great, great grandson of Col. Baker, he stated today. In the Bible are records, which he believes are convincing enough to prove that his father, Allan Robertson, was a great grandson of Col. Baker on his mother's side.

Mr. Robertson says that he remembers his father telling him laughingly when he was a boy that the "worded part of Philadelphia." He is a barber in Sawtelle.

## Glimpses of Hand-Picked Beauties on the Cub Ball Club.

## "BRICK" ELDRED IN HOLDOUT TANTRUM.

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, March 8.—Row "Brick" Eldred, star center fielder of the Seattle club of the Pacific Coast League, has been threatened with suspension if he does not report to his club at Pomona, it was said by Eldred here today, following receipt of a letter from President William Kieffer of the Seattle club.  
Eldred has been holding out in view of a disagreement over salary. He stated today that he had telegraphed one of the Seattle directors and if his demands are not granted he will not report.

## PORTLAND BEAVERS GET NEW PLAYERS.

(BY A. P. NIGHT WIRE.)  
PORTLAND (Or.) March 8.—Two players new to the Pacific Coast League are expected to make up the Portland club this season. They are: Rip King, highly recommended by the Seattle club, and S. M. Benedict of Caldwell, Idaho, formerly a player in the Texas league. King played professional football at Los Angeles during the winter and is a catcher. Benedict is a third baseman.

## MOTORBOAT RACES SET FOR AMERICA.

(BY A. P. NIGHT WIRE.)  
NEW YORK, March 8.—Arrangements for the holding of the international motorboat races for the Harmsworth trophy in this country next summer are under way. The challenge received from the Royal Motor Yacht Club of England is the first of several expected in an effort to regain the trophy won from British motorboats by Gar Wood of Detroit off the Isle of Wight last August.

## LANDIS WILL BE SOLICITED IN CASE.

(BY A. P. NIGHT WIRE.)  
AKRON (O.) March 8.—Baseball Commissioner Landis will be asked to intervene in the Akron League franchise muddle, President Joe Thomas of the local club announced today. Thomas stated that he will lay the situation before the grand jury in an attempt to retain a berth in the International League for Akron.

## AUTO THIEVES GET NINE CARS.

Premier Event of Year Comes Off at St. Louis.

(BY A. P. NIGHT WIRE.)  
CHICAGO, March 8.—International contests among the world's greatest golfers are in prospect for the coming summer in a series of tournaments, starting on May 21 with the British amateur event at Royal Lake and ending with the women's national championship at Hollywood Golf Club, Sept. 1, October 1-2.

A number of American women, as well as men, are planning to invade England and probably France. The British amateurs expect to try to retain the American open title won last year at Inverness club, Toledo, by Edward Ray. Some British amateurs also plan to have a try for the American title, now held by Chick Evans for the second time, when that event is staged at the St. Louis Country Club, September 17-24.

TEAM FORMING.  
Recently Champion Evans, as well as former Champion Robert Gardner of Chicago, who lost the British amateur title to Cyril Toller last year on the thirty-seventh green, announced that they would prevent their going to Europe this summer. A team is forming under the leadership of W. C. Fownes, Jr., of Pittsburgh, however, to attempt to repeat the unique feat of W. S. Travis, veteran American golfer, who in 1913 won the British title with his uncanny putting.

The American pilgrims thus far announced are Capt. Fownes, Bobby Jones of Atlanta, Max Marston of New York and Nelson Whitney of New Orleans. Others will likely join these four, and even Evans and Gardner may reconsider. A number of American professionals also are planning to go to Europe, but the personnel is not yet definite.

A LITTLE EARLY.  
The earliest of the first event of the year, the British amateur championship, is one of the deterrents to American participation. American golfers are seldom in championship form by May 25, when the British amateurs begin their training for the 1921 season on the Buffalo Park field here. Lewis Mooring, club owner, has his team well organized, and believes he will have little trouble in presenting a formidable line-up for the opening day of the season.

Those on the training roster are: Marty McGuffigan, second base; Billy Orr, shortstop; Charley Pick, third base; Fred Molloy, first base; Pete Compton, Merlyn Kopp and "Buddy" Ryan, outfielders; Harold Elliott, Bobby Schanz and Lester Cook, catchers; Dick Niehaus, Bill Frough, Paul Fittery, Tony Paeth, "Finches" Kuns, Kenneth Penner and Carroll Jones, pitchers; Roy Grover and Les Sheehan, utility men.

## JUDGE LANDIS AFTER BASEBALL GAMBLERS.

(BY A. P. NIGHT WIRE.)  
PORT HURON (Mich.) March 8.—Judge Landis, commissioner of baseball, let it be known today that he will do all in his power to make life unpleasant for baseball gamblers.

In a letter to G. H. Mathea, president of the Michigan-Ontario League, Judge Landis wrote: "While the criminal classes have sought to put money in their purses by their attempted association with a great national institution, restful pillows will be mighty scarce, and this goes for the crooks inside and the crooks outside. We may not get them all in the penitentiary, but they will be kept off the baseball diamond and out of baseball parks."

## FOURNIER AT FIRST.

(BY A. P. NIGHT WIRE.)  
ST. LOUIS, March 8.—The first base problem of the St. Louis Nationals has been settled, according to advice from the training camp at Orange, Tex. Jack Fournier, who played that position last season, rejoined the club today.

## Tiny Floats to be in Kiddies' Parade Sunday.

The Kiddies' Parade, to be held at Ocean Park Sunday afternoon, will be made up of beautiful children, pushing or pulling miniature floats. Coasters, scooters, doll buggies, wagons, tricycles and kiddie cars have been transformed into tiny floats that will give the parade the appearance of a miniature Tournament of Roses. People throughout Southern California are busy getting the children ready to compete for the cash prizes that will be given for the most beautiful child and for the most handsomely decorated vehicle.

The parade will form at Rose avenue and Ocean Front at 1:30 o'clock and start marching promptly at 2 o'clock. The route of march will be on Rose avenue to Ocean Front, to Pickering Pleasure Pier, then to the judges' stand on the end of the pier, where the judges will select the winners and award the prizes.

MARKETS LOAD UP WITH FISH.

(Continued from First Page.)

will be announced in Sunday's Times. Sixty prizes, ranging from a case of tuna down to thirty prizes of a can each, will be awarded those estimating most nearly correct the time required for one of the homing pigeons to fly from the Times Building at First street and Broadway to their loft at Point Pinnin. A trial flight was held yesterday over the course and five birds arrived at their destination several minutes before the others. The time? That will be printed within a few days.

The race will start at noon today. Two boxes of pigeons used by the Cannery Fish Company, under whose auspices the race is being conducted, will be released simultaneously. The birds are used ordinarily to carry messages between the fishing fleet and the canning factories. They have flown 100 miles in two and one-half hours and have made the flight from Catalina in twenty-four minutes under favorable conditions.

FLOATS AT BEACH CITY. Long Beach will celebrate with a parade beginning at 11 o'clock this morning. The line of march will be through the downtown district of the city and will show representative floats from the many dining establishments at the harbor. Cafes and hotels in Southern California and throughout the country will have special fish dishes on their menus today and in many industrial establishments observance of the day will be made.

Yesterday C. E. Van Landingham of the C. E. Van Landingham Company, packers of tuna and sardines, sent a case of assorted fish to The Times to assist its employees in a suitable celebration of the day. The most remarkable assortment of sea products seen in many a day challenged the selection of Los Angeles housewives yesterday. Virtually everything in season was made available by weather conducive to good catches. The "spring" runs of fish in the height of their table condition, already have commenced.

URGES DIVERSE DEMAND. For years, persistent efforts have been made by the State Fish and Game Commission to diversify the demand from the overexploited and inferior so-called halibut of this Coast, whose ease of preparation is its sole excuse for popularity. It has done more to render fish unpopular than prices, says Norman S. Scofield, the game warden, who is in charge of the Fish and Game Commission's comprehensive commercial fisheries activities. Mr. Scofield is now in Los Angeles on State fisheries business. He took occasion yesterday to say a few words concerning the object and importance of fish day.

"If we could by some stroke of magic, awaken the American people to the advantages of fish today, there would be no food problem tomorrow," says this lifetime student of marine food supply possibilities. FISH IDEAL FOOD. "Fish is the ideal food of the man of today, whose work is mental rather than physical, and requires stimulus rather than the more muscular support of red meats. In a state so wonderfully favored by nature as California, and so signally helped by scientific fish-cultural work, there is no excuse for our altogether too moderate per capita fish consumption. Why the average amount sold, prices would then be lower, for the demand would then be diversified and the innumerable better varieties now passed by would bear their proper part of the supply. This is one of the ends we are all working toward."

Yesterday, it was a capacious choicer, indeed, who could not find something to his liking among the salmon, striped bass, anchovies, mackerel, rock cod, sea bass, barracuda, halibut, not to overlook the less but no less choice, commonly mislabeled Columbia River smelt. There is a virtually unlimited supply of these now, coming down in cracked ice from the Columbia River every day or two in prime fresh condition, and the Los Angeles could—and should—consume 100 tons of fish a day. It is hardly one-fifth that quantity.

The ceremony was witnessed by relatives and intimate friends. The recent death of the bride's grandmother caused a change in the original plans for a large wedding. The house was a bower of spring blossoms in all colors, with peach and pear blossoms in abundance. The bride, who was unattended, was lovely in a gown of white combined with real lace and embroidered in pearls. She wore a long tulle veil crowned with orange blossoms and carried a shower bouquet of orchids and bride's roses. A reception followed the ceremony. The newlyweds are now in San Francisco, where they went by motor. The bride is the great-granddaughter of Harris Newman, who came across the plains in 1849. The dry enforcement ordinance, recently passed and then quickly repealed by the City Council will come before the voters at the June 7 election. and this week will emphasize the drive to make the sum much greater. The Ebell Club promises a big benefit entertainment, some time in the near future, after the rest of the year is over. High school students, under the leadership of Roger Sterritt, have just completed the posters that command attention in street cars and on the streets. One of them, depicting an armless soldier, reads: "He gave an arm for us; let's lend a hand to him."

## ENGINEER TOLD TO "GET BUSY."

Works Board Acts on Kicks About Torn-up Streets.

One Lonely Gang Has Tried to Replace Pavements.

New Order Makes Many Men Available for the Job.

In view of complaints from all parts of the city in regard to the torn-up condition of streets, the Board of Public Works yesterday instructed City Engineer Griffin to get busy. Most of the protests concern cases in which public service companies have installed service connections to dwellings and have paid the city for the necessary pavement replacement work.

Though the engineering office, the largest city government department, has 1250 employees, one lonely gang of men has been attempting to do the replacement work for the entire city. Hereafter, under the administration of City Engineer Griffin, division foremen will be held responsible for the condition of streets in their districts. This change will make available for replacement work scores of engineering department laborers, inspectors and other employees.

The total budget allowance of the engineering department for expenses during the present fiscal year is \$2,515,416, an outlay that makes it the most expensive city department. During the last fiscal year public utility corporations paid into the city treasury for street replacements \$145,459.41, while the expenses of the replacement department were \$153,861.68. During the present fiscal year, up to the 1st inst., corporations which have opened streets to lay mains or conduits or to install service connections have paid in or owe to the city \$125,593.47, while the replacement department had spent up to the 1st inst. \$108,786.46, and still complaints came in from every part of the city of open trenches and otherwise torn-up pavements. The order of the commissioners for the City Engineer to rearrange the work followed.

In spite of the fact that with 1250 employees, he has more men under him than Chief Pendergast has, Pendergast or Chief Scott has foreman, four chairmen and one instrument man to his staff, a total monthly expense of \$675. In view of the fact that the Councilmen say that economy, retrenchment and efficiency are the order of the

day in the city government, it is considered probable that the City Engineer will be told he must produce results with his present force. The final cost of much of the work that would be done by the proposed gang of men would be assessed as engineering fees against tract and other developers, and it is against these excessive fees and charges under the administration of City Engineer Griffin that prominent contractors and builders of the city have repeatedly protested.

## SHERIFF LOSES FINAL APPEAL.

Writ of Prohibition Denied; Traeger to Take Over Office Today.

Department One of the District Court of Appeal yesterday denied the petition for a writ of prohibition prayed for by Sheriff Cline as a result of Judge Monroe's ouster order. There was no opinion filed, merely the order of denial.

The judgment in the Cline ouster proceedings will be entered by the County Clerk about 10 o'clock this morning and shortly afterward William J. Traeger will be sworn in as Sheriff by the County Clerk.

SOCIAL WORKER BANKRUPT. Clara Conway Bell, who lists herself as a social worker, filed a petition in bankruptcy in the United States District Court, yesterday, giving her debts, all unsecured, as \$9716.41, and her assets as \$235, all exempt from taxation. The principal item in the liabilities is a judgment for \$8776.79, secured by the Commercial National Bank.

Health the Keynote to Beauty. Beauty means so much to women—power, social triumph, admiration and love. Beauty implies good health. Whoever saw a woman racked with pain, struggling with weakness or disease, who could be called beautiful? The woman of today in this high-strung, nervous age is continually overdoing, with the result that ill health to her sex develop which, unchecked, will ruin all chances for her happiness. The natural restorative for such ailments is Lydia E. Pinkham's Vegetable Compound, which for more than forty years has been recognized as a standard remedy for women's ills, and has done much to relieve pain and restore good health to women. An Open Letter to Douglas Fairbanks.

Dear Mr. Fairbanks:

I suppose I ought to say Doug., but I don't want to be too familiar.. It certainly must be great to sit down in a big audience and see yourself acting on the screen.

I've always been a great admirer of your pictures because I love enthusiasm and pep, and you certainly put both into your work. Gosh! some of the stunts you do would give the average man heart failure.

I've often heard about your making big money, but you sure do earn all you get.

I imagine you are fond of good coffee—most live wires like you are. Let me suggest that you tip off your housekeeper to order you some Newmark's Coffee if you are not already using it. You'll say it's the most delicious coffee you ever tasted. You have my word for it, and I know.

Sincerely,

Shirley Stone
